A NEW CENTER FOR SCIENTIFIC AND TECHNOLOGICAL ADVANCED RESEARCH: N2STAR
Koç University has launched the Applied Research Center on Scientific and Technological Advanced Research (N2STAR) in 2021 to foster innovation and transform cutting-edge scientific and technological research into practical applications. N2STAR is expected to strengthen research capacity and attract international collaborations for the next generation of scientists in Turkey.

TUMOURS DISAPPEARING: ONCOLOGY NEWS
Cancer is one of the most aggressive diseases and the one against which we are the least equipped to fight. This year marks the 100th anniversary of the discovery of cancer by Dr. Paul Ehrlich. To commemorate this milestone, let's take a look at how science and technology are revolutionizing cancer treatment.

REMEMBERING DR. PAUL FARMER, A PUBLIC HEALTH PIONEER
Remembering Dr. Paul Farmer, a medical anthropologist and activist, who dedicated his life to advocating for health equity. He was an advocate for health care for all, particularly in areas with the poorest health outcomes.

FOREIGN DIGNITARIES’ DAYS IN ANKARA
A study by VEKAM revealed a written panorama of the period between 1923 and 1960 by identifying and evaluating foreign heads of state such as presidents and prime ministers who visited Ankara in that timeframe. The objectives of the research included understanding the context, politics, and social dynamics of international relations during that period.

RESEARCHER’S ROADMAP
A summary of research papers and projects published in refereed journals. The table includes the number of publications, number of citations, and impact factor for each paper.

KUCAST
A month-long video celebration held in March to honor the 26th anniversary of Koç University. The event featured a talk by Dr. Paul Farmer, who was our Commencement Speaker at Koç University’s 26th Commencement Ceremony in 2022. Dr. Palmer, who devoted his life to advocating for equity, shared his work with us on public health.

A PUBLIC HEALTH PIONEER
REMEMBERING DR. PAUL FARMER, A PUBLIC HEALTH PIONEER
Dr. Paul Farmer was an advocate for health care for all, particularly in areas with the poorest health outcomes. He was an inspiration to many and his legacy continues to influence the field of public health.
